

Project 1 – completion of Supported Housing Accommodation

Our vision is to create an environment where good family life and relationships can be modeled so as to prosper the long-term benefit of each and every child. To achieve this we:

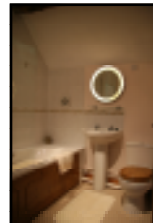

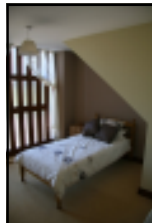

1. Provide short-term accommodation for vulnerable children and their mothers who are in housing need because they are unable to continue living at home with family or partner, and where they will receive support;
2. Provide support during pregnancy and in the early stages of looking after a baby, which will enable a mother to eventually sustain care for her child independently or to make a decision on their future;
3. Facilitate access to a wide range of other support services such as basic skills, education, job training, health, benefits advice and resettlement housing.

Those using the accommodation will include:

- Teenage and young mothers needing parenting support
- Mothers with learning or physical disabilities
- Pregnant women needing 'time out' to consider options, such as adoption
- Mothers and young children fleeing domestic violence and needing parenting support
- Parents struggling with the challenges of parenthood

*The funding now being sought will complete **The Courtyard** above and right, enabling three 2 bedroom units to be finished in a similar way to **The Haybarn** (below), which has 4 one bedroom apartments and is now fully operational.*

Funds previously raised have completed external work on The Courtyard.

Remaining costs for this final phase of three 2-bedroom apartments are shown below:

	<u>Each apartment</u>	<u>Total</u>
All internal works and decoration	£27,100	£81,300
Furnishings and fittings	£5,195	£15,585
 External landscaping (front)		 £3,000
Total to complete remaining apartments		£99,885
